PRUSSING'S PALATANCE FOR THE PARTY OF THE

The Mont Remarkable Remedy ever Place of the least in article appeared which has met with greater approval and success than Benoon's Capcine Plaster. Why they are preferred to all other porous plasters, is owing to their improved composition; they act instantaneously, cure speedily and effectually.

Physicians and the general public who acknowledge the great benefits derived from the use of the ordinary porous plaster, however, maintain that their action is not sufficiently prompt, requiring time, patience and continuous wear to effect a cure. Benson's Capcine Plaster overcomes this difficulty by occomplishing in a few hours, that which it takes any other Plaster as many days.

Although a recent discovery—Capcine has been thoroughly tested by physicians, and in each instance has been pronounced the most remarkable, safe, certain and thoroughly efficacious remedy ever discovered.

Incorporating Capcine in an improved

covered,
Incorporating Capcine in an improved Porous Plaster has been accomplished after repeated solicitations from the medical fraternity and is now prescribed by them with unprecedented success; especially in Rheumatism, Pleurisy, stubborn Colds, Kidney Complaints, and all diseases for which a Porous Plaster has been used.

diseases for which a Porous Plaster has been used.

Its marvelous influence over the circulation, and general effect on the system is almost incredible; from the moment of its application to the affected part, it operates with astonishing vigor—brings relief and cures more effectually than any known Plaster, Liniment or Compound. It is a genuine pharmacentical preparation of the highest order of merit; its ingredients are entirely vegetable and free from Mineral or Metal Poison. One trial with convince the most skepitcal of its superiority over the ordinary Porous Plasters. When you desire prompt and immediate relief, ask your druggist for Benson's Capcine Plaster. Price, 25 cents.

CAIRO.

The Trustees of the Cairo City Property desire to call public attention to the merits of their property, compris ing a considerable portion of the City of Cairo, in Alexander County, in the State

of Illinois, and fands immediately adia

This city, as is well known, is situated at the confluence of the Ohio and Mississippi rivers, at the head of uninterupted navigation on the Mississippi, being below obstructions by ice in the winter and low water in summer, and thus has a clear and open river communication at all times over the Mississippi and its tributaries, with all the country south, to the Gulf of Mexico and the Afiantic Ocean. Cairo has also the same character of communication with all the country north over the streams flowing by it, when those streams are not innavigable by reason of ice or low water.

Before the era of Ratiroads, Cairo and a commanding position as a centre of commerce and navigation. This importance of position she still possesses, but has now the additional advantage of being a great railroad centre, a number of the most important railroads in the Valley of the Mississippi converging to and having their termini there. Among these, coming from the north are the great limois Central Railroad, which traverses the entire state of Illinois from its extreme northern and north-eastern to its southern limits, and by its connections extends into all the great northwestern grain producing States; the Cairo and Vincennes, extending from Cairo to the City of Vincennes, in the State of Indiana, where its connections afford direct railroad communications with all Eastern cities; and the Cairo & St. Louis Railroad, affording a direct railroad communication with the City of St. Louis and all the railroads centering there. The roads coming from the South are the New Orleans, Jackson and Great Northern and the Mobile and Ohio Railroads, which give direct railroad communication with the cities of Mobile and New Orleans, and other Southern Atlantic sea ports, and by connecting roads with all zero parts, and by connecting roads with all zero parts and by connecting roads. Before the era of Ratiroads, Cairo had New Orleans, and other Southern Atlantic sea ports, and by connecting roads with all the country south of Cairo; and coming the country south of Cairo; and coming from the southwest is the Cairo, Arkansas and Texas Rairoad, which silords similar communication with Southern Missouri, Arkansas and Texas, and the principal cities of those States. This last-named road will give, also, direct councetion with the Texas and Pacific Road when it is completed, the giving direct communication with Texas and l'acine Road when it is completed, thus giving direct communication with the principal ports of the l'acine Ocean These railroads, terminating at Catro, are now all completed and in successful operation, those in Illinois coming into the rity on a bank of each of the rivers. Ohio and Mississippi, and terminating at their confluence, thus encircling the city. The Holly Springs, Brownsville and Ohio River Railroad, and the Cairo and Tennessee River Springs, frowhsville and Onlo River Rail-road, and the Cairo and Tennessee River Railroad, which will both terminate at Cairo, are in course of construction and will soon be completed, and other railroads both in lilinois and in States south of the Ohio river, which will also terminate at Cairo, are projected, and arrangements made to build them. The construction of these will greatly increase the ratiroad communi-

Its central location in the gree's Valley of the Mississippi, and the great wealth of river and railroad communication, gives to Cairo unsurpassed advantages as a commercial point, as it affords to her easy and cheap ac-cess to all the crain producing districts of the North and West, and similar access to all the agricultural produce consumers of the South, thus presenting the best location in the Westfor an interchange of the respective northern and southern commodities and productions.

As a manufacturing location the position of Cairo is notices important. The crude materials of every description, which constitute the elements of manufactured articles, abound on every side, from ore, coal, of superior quality, and timber of every character, more than others, being easily and cheaply accessible, and the rich agricultural region of the immediate neighborhood, as well as the more remote districts rendered tributary to it by river and rail, furnish supplies of the Lecessaries of life in such abundance as to render living exceptionally cheap. When the manufactured articles are produced, the facilities for cheap distribution by river and rail are not equalled.

Cairo has a moral, intelligent, liberal and enterprising population of about 12,000—has a superior system of public schools, which, with others conducted by private enterprise, afford unsurp seed educational advantages—is possessed of well-established churches of nearly every denomination—has public and private buildings of a superior character—has a climate, which for sambirity and healthful influences cannot be surpassed—has a well-regulated and effectent municipal organization, its streets lighted with gas, and other metropolitan advantages, which make it highly desirable and in reality not to be excelled as a place of permanent residence.

Lets and land in Cairo are now offered at very low prices, affording tavorable oppor-tunities to purchase, and the owners pre-cent the location to the public as offering unrivaled advantages for the successful es-tablishment of commercial or manufactur-ing enterprises, and the best locality in the country for profitable investment of capital.

B. STAATS TAYLOR, EDWIN PARSONS, CATRO, It.L., May 1st, 1874.

St.Jo. Medical INSTITUTE

Ertablished as a Refuge from Quackery. THE only place where a sure cure can be relied upon. Little is required in the way of advertising, as the reputation of the institution is well known throughout the West. Call and be convinced that this is the largest and most complete institution of the kind in America for the successful treatment of all Chronic Sexual, Private and Veneral Diseases of both sexes, such as Syphilis, Gomorrheas, Gleet, Stricture, Impure, Varicoes Veins, Ore-bitis, Bubo, &c. All urinary and syphilitic or mercurial affections of the throat, skin or bones are treated with unparalleled success. Genorrheas cured in from the to five days. Syphilis cured in from the to the days. Over 17,779 cases cured, Seminal Weakness, Spectualorrheas, Night Losses, Sexual Dellity, and Impotency, Loss of Sexual Power, as the result of self-abuse in youth, sexual excesses in manner years, and all impeliments to marriage, permanently cured without mercury or any other mineral poison. Patients at a distinguished by the stress of the service of the stress of the service timely grave thousands of young furn of the most exalted talents and brilliant intellect, who

most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of elequence, or waked to ecstacy the living lyre-may call with full confidence. What a pity that a young man, the hope of his country, the darling of his parents, should be enatched lirour all prospects and enjoyments of life by the consequences of deviating from the path of nature and indulging in a cortain accret habit. Such persons must, before contemplating marriage, reflect that a sound mind and body are the most necessary requisites to promote connubial happiness, indeed without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens to the view, the mind becomes shadowed with despair and filled with melancholly reflections that the happiness of another is blighted with our own. To all erring young men we would say, do not keep this secree to yourself and vour God until it has sapped the vitals and left you a wreck of humanity, a curse to yourself and a burden to society. If you are entangled in the snare of self polintion, or any private disease, fee from its distraction, and apply at St. Joseph Medical Institute for treatment, and become once more a mansa being.

Ayer's Cathartic Pills,

serious sickness and suffering is prevented by their timely use; and every family should have them to hand for their protection and relief, when required. Long experience has proved them to be the salest, surest, and best of all the Pills with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become deeged and sluggish are cleansed by Aper's Pills, and etimolated into action. Thus incipient disease is changed into health, the value of which change, when reckened on the vast multitudes who enjoy it, can hardly be computed. Their sugar-coating makes them pleasant to take, and perserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although scarching, they are mild, and operate without disturbance to the constitution or diet or occupation.

Full directions are given on the wrapper to each box, how to use them as a Familt Physic and for the following complaints, which these Pills rapidly cure:

For Dyspepsic or Endignession, Lieuwess, Languar, and Loss of Apperite, they should be taken moderately to eliminate the stomach, and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Billous Headsache, Sick Headsache, Sic

For Suppression, a large dose should be taken, as it produces the desired effect by taken, as it produces the desired effect by sympathy.

As a Hinner Pill, take one or two Pills to promote direction, and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and inrigorates the system. Hence it is often advantations where no serious dering eacht exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decisedly better, from their cleansing and renovating effect on the digistive apparatus.

Ayer's Ague Cure, For Fever and Ague, Intermittent Fo-ver, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Ellique Fe-ver, &c., and indeed all the affections which arise from malarious, march, or

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer,

with a perfect certainty that it will eradicate the disease, and with accurance, founded on proof, that ne harm can arise from its use in any quantity.

That which protects from or prevents this disorder must be of immense service in the communities where it provides. communities where it prevails. Prevention is better than cure; for the patient escapes the risk which he must run in violent attacks of this haleful distemper. This "Cure" expels the miasmatic poison of Fever and Agne from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of intermittents is, that it contains no Quinine or mineral; consequently it produces no quinism or other injurious effects whatever upon the constitution. These cured by it are left as healthy as if they had never had the disease. communities where it prevale. Precention Fever and Agne is not alone the con-

variety of disorders arise from its irritation. among which are Neuralgia, Rheuma-tism. Gent, Hendache, Blindaese, Toothache, Earache, Catarrh, Asth-ma, Pulpitation, Painful Affection of the Spicen, Hysterics, Pain in the Bowels, Colic, Paralysis, and derange ment of the Stomach, all of which, when originating in this cause, put on the interoriginating in this cause, put on the intermittent type, or become periodical. This "CCRK" expels the poison from the blood, and consequently cures them all aike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure; and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

For Liver Complaints, arising from torpid-

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity, and producing many truly remarkable cures, where other medicines fail.
